Items herein are intended as a visual representation and are subject to change without notice. Visit nightstick com for product updates. Nightstick products are designed in Texas, USA and manufactured abroad with components from domestic and international sources. The distinctive shapes, style, packaging, configurations and overall appearance of these products are trademarks of Bayco Products, Inc. The unique LED configuration, body and case shapes inherently identify them as members of the Bayco Products, Inc. portfolio.

PERFORMANCE, QUALITY AND VALUE

CHAMPION PERFORMANCE Nightstick products are built not only with lumen ratings that exceed most competitor products, but also with optimized performance characteristics such as; candela, beam distance and run-times. Throughout the design process we take into consideration all of these factors for the best efficiency and performance. Our products are also designed and manufactured using the best quality housing materials, precision engineered reflectors, real-world switch functionality, state-of-the-art electronics and the latest generation battery technology. Innovations like our exclusive Dual-Light™ design, combining a flashlight and a floodlight into a single light with the ability to turn both on simultaneously, is altering the idea of what a flashlight is capable of. Innovative thinking is reflected across the complete line of products.

COMMITMENT TO QUALITY All products produced at our dedicated ISO 9001 Certified Factories undergo rigorous quality control inspections conducted by independent 3rd party inspectors at multiple points during the manufacturing process. Additional quality control inspections take place as products arrive and leave the distribution facility. Each product is backed with a warranty and a 100% customer service satisfaction experience.

EXCEPTIONAL VALUE All of our products are designed to out perform with a higher quality standard than any other product in its class. Even with the highest quality standards, the Nightstick line costs less compared to competitors. We remain committed to delivering the industry's best performing and highest quality products at the lowest cost possible.
