DUST COLLECTION

MAKE DUST HISTORY

PROTECT THE TOOLS YOU CAN'T REPLACE

SILICOSIS IS 100% PREVENTABLE*

PRO+GUARD™

PERFORMANCE · COMPLIANCE · SAFETY

Whether you're concerned about the health of your employees, ensuring OSHA compliance or increasing productivity, Bosch has a PRO+GUARD™ dust solution to meet your needs. Bosch offers proven products like Speed Clean™ dust extraction bits that reduce respirable silica dust particulates while reducing installation time by up to 50 percent.

Visit boschtools.com/PROGUARD for more information.

HEPA Ready

WE'VE GOT YOUR BACK

PRO+GUARD™
PERFORMANCE • COMPLIANCE • SAFETY

MOVE TOWARD **OSHA** 1926.1153 **COMPLIANCE**

When you're looking for a power tool partner that can help move your organization toward compliance, yet maintain productivity, there's only one choice. The Bosch PRO+GUARD™ dust solution lineup is the largest in the industry, offering peace of mind that you're working with the best tools and technology available.

▶ Bosch offers the concrete industry's largest selection of products designed specifically for applications that require dust protection

▶ Dust solutions from Bosch offer maximum respirable silica dust removal by applying industry-best technologies

▶ Bosch dust solutions are built around best-in-class dust extractors that offer consistent suction to ensure maximum performance and compliance

BOSCH
Invented for life

MAXIMIZE PERFORMANCE AND COMPLIANCE

DUST CONTROL SYSTEMS

A strong system begins with the application. Bosch offers the power tool industry's largest dust solution lineup under the PRO+GUARD™ line.

HIGH PRODUCTIVITY

The key component in an OSHA-compliant dust management system is a professional-grade dust extractor. Bosch dust extractors provide best-in-class CFM (cubic feet per minute) along with high suction power for maximum productivity.

AUTO FILTER CLEANING

Bosch filter technology reverses air flow every 15 seconds to keep the filter clean for longer life.

Move Toward OSHA Compliance with PRO+GUARD™ Dust Solutions

MASONRY/
TUCKPOINTING

CONCRETE
SURFACE
GRINDING

CONCRETE CUTTING

CONCRETE DRILLING

*

*OSHA Table 1 requires 225 CFM
dust extractor for 9 In. guard.

CONCRETE CHISELING/
DEMOLITION

RESPIRATION

Use of a respirator
is dependent upon
the application and
equipment used.
Respirators that
filter contaminants
provide a final
line of defense in
protecting the user.

CLEAN UP

The OSHA-compliant
dust management system
ends with a collection bag
designed to keep the dust in
the bag vs. in the canister.
Bosch relies on fleece filter
bags to safeguard users from
additional silica dust exposure
when changing the bag.

AUTOMATIC FILTER-CLEANING DUST EXTRACTOR

WET*/DRY VAC SERIES

POWER TOOL ACTIVATION

ON/OFF SWITCH

EFFECTIVE DUST EXTRACTION
150 CFM (max.)

AUTOMATIC FILTER CLEANING (AFC)
Every 15 seconds the flat-pleated filter is cleaned through reversed airflow

EASY-TO-CHANGE FLAT FILTERS

POWER BROKER
For allocating power between vacuum and connected power tool; also allows adjustment of suction control for specialty applications

HOSE AND CORD STORAGE
▸ Secure vacuum hose wrap
▸ Power cord hook

AUTOMATIC FILTER CLEANING

ON/OFF BUTTON

INDICATOR LIGHT
▸ No Light = Off
▸ Green = On

ROBUST WHEELS
▸ Jobsite tested rear wheels
▸ Front caster with brake

*Water level sensor for automatic shut off. Do not use HEPA filter for wet vacuuming.

9-GALLON DUST EXTRACTOR WITH AUTO FILTER CLEANING/HEPA FILTER/ FLEECE FILTER BAG

VAC090AH

▶ Automatic Filter Cleaning—Cleans filter every 15 seconds to maintain maximum suction power
▶ Power Tool Activation—Allows power tool switch to turn vacuum on and off
▶ Power Broker Dial—For allocating power between vacuum and connected power tool; also allows suction control for specialty applications
▶ Durable Wheels and Casters (One Locking)—Built to withstand the demands of a jobsite

INCLUDES
Fleece Filter Bag **VB090F**
Anti-Static Bend Nozzle **VX100**
10 Ft. Hose **VH1035**
Power Tool Adapter Nozzle **VX120**
HEPA Filter

SPECIFICATIONS	
RATING	120V
FREQUENCY	60 Hz
CANISTER VOLUME (GROSS)	9.25
AIR FLOW (MAX.)	150 CFM (70 ltr./sec.)

DUST COLLECTION

The Bosch L-Boxx tool storage system makes organization of additional fleece bags, dust management attachments and personal protective equipment easy. The Bosch Click & Go® system ensures attachment to any Bosch dust extractor is convenient and secure for quick transport.

9-GALLON PRO+GUARD™ DRILLING KIT

GXA3-01L

PRO+GUARD
PERFORMANCE · COMPLIANCE · SAFETY

- ▸ HEPA Filter—Captures 99.97% of particles larger than 0.3 microns
- ▸ Fleece Dust Filter Bag Design—Works as a preliminary filter and a secure way to capture debris and dust to extend the life of the main filter
- ▸ Dust-Extraction Attachment for Concrete Drilling—Optimized for drilling diameters from 5/8 In. to 1-3/8 In.; accommodates up to 2-1/2 In. by removing brush ring
- ▸ Drilling Attachment Dust Port—Fits Bosch 1-3/8 In. vacuum nozzle and can convert to 1-1/4 In./2 In. hose nozzles
- ▸ L-Boxx Dust Extractor Integration—Creates a mobile workstation for easier portability
- ▸ Upgraded One-Click Stacking—Easily lock tool cases together in seconds for secure transport and handling

INCLUDES
HEPA Filter **VF130H**
(5) 9-Gallon Fleece Filter Bag **VB090F**
Dust Collection Attachment **HDC200**
Carrying Case **L-BOXX-3**

Information about L-Boxx storage solutions is available on pages 136–144.

BOSCH
Invented for life

DUST COLLECTION

FILTERS

▶ Each fits VAC090A, VAC090AH, VAC090S, VAC140A, VAC140AH and VAC140S dust extractors

VF120H   VF130H

ITEM #	DESCRIPTION
VF100	Flat paper (cellulose) filter
VF110	Flat polyester filter (required for wet vacuuming)
VF120H	Flat HEPA filter
VF130H	Extended life, flat HEPA filter

LOCKING HOSES

▶ Each hose fits VAC090A, VAC090AH, VAC090S, VAC140A, VAC140AH and VAC140S dust extractors
▶ Not compatible with other dust extractors
▶ These hoses connect many Bosch power tools and dust extraction attachments to Bosch VAC series dust extractors
▶ VX120 power tool adapter is included
▶ Each hose has swivels at both ends
▶ Anti-static hoses help prevent static shock and cling

VH1635   VH1635A

ITEM #	DESCRIPTION
VH1635	16 ft., 35mm hose
VH1635A	Anti-static 16 ft., 35mm hose
VH1622A	Anti-static 16 ft., 22mm hose
VH1035	10 ft., 35mm hose
VH1022	10 ft., 22mm hose

POWER TOOL ADAPTER

ITEM #	DESCRIPTION
VX120	Connects VH hoses to tools that have ports for 35mm, 22mm or 19mm hoses. Included with all VH hoses

DISPOSABLE BAGS

▶ Each fits VAC090A, VAC090AH, VAC090S, VAC140A, VAC140AH and VAC140S dust extractors
▶ A fleece filter bag (VB090F and VB140F) is recommended when using a HEPA filter
▶ VB090S is the only bag suited for wet vacuuming
▶ VB00P includes attached tie for sealing bag when ready for disposal
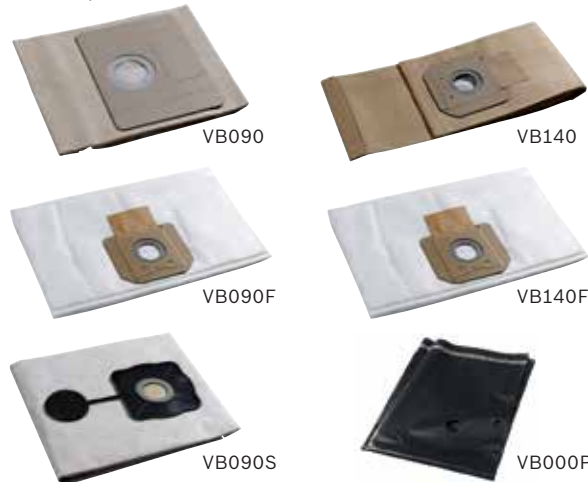

VB090   VB140

VB090F   VB140F

VB090S   VB000P

ITEM #	DESCRIPTION	QUANTITY
VB090	Paper filter bag—9 gal.	5
VB140	Paper filter bag—14 gal.	5
VB090F	Fleece filter bag—9 gal.	5
VB090F-30	Fleece filter bag—9 gal.	30
VB140F	Fleece filter bag—14 gal.	5
VB140F-30	Fleece filter bag—14 gal.	30
VB090S	Wet filter bag—9–14 gal.	5
VB000P	Open-top plastic bag—9–14 gal.	10

BEND/ELBOW

▶ Fits VH series hoses
▶ Fits VX100 extension tube set and most 35mm and 1-1/2 In. tube sets

ITEM #	DESCRIPTION
VX100	Bend/elbow, anti-static

AIRSWEEP LOCKING HOSES

▶ Connect many Bosch power tools and dust-extraction hood attachments to Bosch 3931-series vacuum cleaners

▶ For use only with Bosch 3931-series vacuum cleaners (not compatible with other vacuum cleaners)

▶ Anti-static hoses help prevent static shock and cling

ITEM #	DESCRIPTION
VAC006	35mm 5-meter (16.4 ft.)—swivels at both ends of hose
VAC008	Anti-static 35mm 5-meter (16.4 ft.)—swivels at tool end of hose

AIRSWEEP WIRE ATTACHMENT BASKET

▶ Fits on the rear of 3931 and 3931A vacuum cleaners

ITEM #	DESCRIPTION
VAC014	Stores Bosch 3931 and 3931A vacuum cleaner attachments

AIRSWEEP VACUUM FILTERS

▶ Each pair fits 3931 and 3931A dust extractors (pair of filters required)

VAC012

ITEM #	DESCRIPTION
VAC012	Polyester filters (pair) (required for wet vacuuming)
VAC019	HEPA filters (pair)

DISPOSABLE BAGS

▶ Each fits 3931 series dust extractors

▶ VAC022 is the only bag suited for wet vacuuming

▶ VAC023 includes attached tie for sealing bag when ready for disposal

▶ VAC023 requires use of 3931A compatible canister that has air valve

VAC013   VAC022   VAC023

ITEM #	DESCRIPTION	QTY.
VAC013	Fleece filter bag—5.5 gal.	3
VAC022	Wet filter bag—5.5 gal.	5
VAC023	Open-top plastic bag—10 gal.	3

HOSE ADAPTERS

ITEM #	DESCRIPTION
VAC002	Connects 1-1/4" and 1-1/2" hoses to some tools and attachments that have ports for 35mm, 22mm or 19mm hoses

ITEM #	DESCRIPTION
VAC003	Connects 35mm, 22mm and 19mm hoses to tools that have ports for 1-1/4" hoses

ITEM #	DESCRIPTION
VAC004	Connects 35mm hoses to tools that have ports for 2-1/2" hoses

ITEM #	DESCRIPTION
VAC020	Connects 2-1/2" hoses to tools that have ports for 35mm hoses

ITEM #	DESCRIPTION
VAC024	Connects 1-1/4" and 1-1/2" hoses to tools and attachments that have parts for 35mm, 22mm or 19mm hoses

FRICTION-FIT HOSE

▸ Connects many Bosch power tools and dust extraction hood attachments to dust extractors that have openings for standard 2-1/4 In. hoses
▸ Standard 2-1/4 In. friction fit

ITEM #	DESCRIPTION
VAC005	35mm, 16.4 ft. swivels at both ends of hose

DUST COLLECTION

UNIVERSAL NOZZLES

THREE-PIECE FLOOR NOZZLE SET

▸ Fits on most 35mm and 1-1/2 In. tubes

ITEM #	# OF PIECES	INCLUDES
VX130	3	Floor nozzle set with two inserts (bristles and squeegee)

STEEL EXTENSION TUBE SET

▸ Fits on most 35mm and 1-1/2 In. hoses, bends, nozzles and attachments including VX100 bend

ITEM #	DESCRIPTION
VX110	Three-piece chrome extension tube (3 ft. total length)

SIX-PIECE TUBE AND NOZZLE KIT

▸ Fits on most 35mm hoses and most 1-1/2 In. vacuum hoses

ITEM #	# OF PIECES	INCLUDES
VAC011	6	(2) straight tubes, (1) curved tube, (1) floor nozzle set with three Inserts (smooth floor, carpet and squeegee)—VAC016, (1) crevice tool—VAC017, (1) brush—VAC018

NOZZLES

▸ Fits 35mm tubes, hoses and most 1-1/2 In. tubes and hoses

ITEM #	DESCRIPTION
VAC015	Universal vacuum floor nozzle—for carpet or smooth surfaces
VAC016	Three-piece floor nozzle set (not shown)
VAC017	Vacuum crevice tool—for clean-up in tight spaces
VAC018	Vacuum brush

FILTERS FOR CORDLESS DUST COLLECTION

DF18V-16   VF320H   VF220   VF12V

ITEM #	DESCRIPTION
DF18V-16	Replacement HEPA filter for GDE18V-16 SDS-plus® dust collection attachment (see page 108)
VF320H	Fits GAS18V-3 18V 2.6-gallon wet/dry vacuum cleaner (see page 121)
VF220	Fits GAS18V-02 18V handheld vacuum cleaner (see page 121)
VF12V	Fits VAC120 12V Max cordless vacuum (see page 84)

ATTACHMENTS FOR CORDLESS DUST COLLECTION

WALL MOUNT

▶ Mounting hardware not included

ITEM #	DESCRIPTION
VX240	Fits GAS18V-02 18V handheld vacuum cleaner (see page 121)

DUST COLLECTION

BOSCH

DUST COLLECTION SOLUTIONS

In order to move toward compliancy and protection, it's critical that every component in the system be designed to effectively remove dust. Bosch offers the power tool industry's widest selection of dust management solutions based on application.

MOVE TOWARD OSHA ✓ COMPLIANCE

1. CHOOSE THE TOOL THAT BEST FITS YOUR NEEDS

TOOL
Dust collection systems are available for Bosch grinders, hammers and hammer drills, routers, oscillators, jig saws, circular saws, miter saws, table saws, sanders and planers.

2. IDENTIFY THE CORRECT ATTACHMENT THAT FITS YOUR TOOL

ATTACHMENT
Bosch dust collection attachments are custom engineered to provide maximum performance while preserving the full functionality of the tool.

3. CHOOSE A HEPA READY DUST EXTRACTOR WITH THE HIGHEST CFM AND MEETS EPA GUIDELINES

DUST EXTRACTORS
Bosch dust extractors are rated as high as 150 CFM (cubic feet per minute), with some offering features such as HEPA filtration and automatic filter cleaning.

4. DETERMINE THE RESPIRATOR FOR YOUR APPLICATION (REFER TO THE OSHA TABLE 1)*

For suggested respiratory protection and other personal protective equipment, go to 3M.com/OSHASilica

*OSHA Rule 1926.1153 Table 1

APF 10 shown
3M™ Rugged Comfort™ Half Face Respirator 6500 Series

RESPIRATION
Respirators provide protection by filtering contaminants the user breathes. If needed for the application being performed, respirators of this type include particulate respirators, that filter out airborne particles and air-purifying respirators with cartridges/canisters that filter out chemicals and gases.
