

# INNOVATIVE DESIGNS

ULTIMATE COMFORT, PRODUCTIVITY, AND SAFETY

# revolution®

## NEW REVOLUTION® - 1500 SERIES

A brand new line of Premium Industrial gloves packed with exclusive features developed by Caiman® with emphasis on affordability, ultimate comfort, style and protection. The 1500 series offers range of price, insulation package, cut resistance and heat reflective option.

### EXCLUSIVE FEATURES: \*Not applicable to all.

3-dimensional pattern for ergonomic fit and maximum comfort.

Patent pending wrist design to enhance comfort and safety.\*

Superior insulation and naturally antimicrobial with moisture-wicking properties.\*

Lock-stitching for flame resistant, and high-strength seam integrity.

## 1520 ONE SIZE

A luxurious yet heavy-duty glove due to its soft yet extremely resilient goat grain palm. This glove will serve as a workhorse for demanding welding environments.

The heavy wool insulation is antimicrobial and has natural moisture-wicking properties. Wool not only provides excellent insulation, but also prevents odor from sweat build up. Strategically shaped external leather reinforcements with Kevlar® pattern stitching adds extra protection from heat, abrasions and cuts.

## 1512 ONE SIZE

Excellent value and affordability with premium features. Similar to #1520, this welding glove has many of the same properties and features but the shell is made with affordable cow split leather. Patent pending Caiman Wrist™ design provides added comfort and safety.

## 1524 ONE SIZE

Aluminized thumb and back reflects 90% of radiant heat keeping the gloves cool and comfortable. Featuring heavy wool insulation that is antimicrobial and has natural moisture-wicking properties. Wool not only provides excellent insulation but also prevents odor from sweat build up. The side of the palm is padded for extra comfort, and the leather outer shell provides extended durability.

## 1506

ONE SIZE

Highly recommended! Ultimate combination of features and benefits, highest value of the line. Competitively priced while offering thumb and palm reinforcements, and leather welting on all critical seams. Most comfortable, but effective, insulation.

## 1508

ONE SIZE - 18"

This is the newest addition to the original #1878 21" glove with scallop cuff that Caiman® introduced in 2009. Featuring the same design and attributes as #1506, the #1508 is not only extremely comfortable and affordable, but also protects up to the elbow. The entire shell is made with high quality and durable cow split leather.

## 1504

ONE SIZE

### 1504-3

3-PAIR VALUE PACK

A new and perfect answer to the ugly, old and uncomfortable gray welding gloves that have tormented welders for too many years. Affordability, comfort and an ergonomically-correct straight-thumb with reinforcement strap sets this glove apart from the rest. Sewn with Kevlar® thread lock-stitching and leather welting on critical seams.

## 1540

SIZES: S – XL

The Ultimate TIG glove featuring premium goat grain leather on palm, and seamless index finger for durability and dexterity. Outside portion of index and upper palm area are internally padded for comfort during extended TIG operations. External cow split leather lean-drag patch provides extra insulation and durability. Patent pending Kontour Wrist™ design provides added comfort and safety.

# revolution®

## CLASSIC REVOLUTION® 1800 SERIES

In 2007, for the first time ever, Caiman® introduced revolutionary 3-dimensional and form-fitting designs never before applied to welding gloves. Revolution® series has become to be known as top-of-the-line: The most premium welding gloves in the world.

From material selection to attention to design details, Revolution® delivers unprecedented comfort, style, and safety.

Revolution®, as the name suggests, is a complete departure from traditional welding gloves with minimal comfort, finger dexterity, or aesthetic value. Caiman® Revolution® gloves instantly set the bar high, and became a new standard for others to follow.

## 1810

SIZES: M – 2XL

Unlined palm offers excellent dexterity, and top grain cowhide palm offers lasting wear. Excellent for general work in metal fabrication environments. Perfect for MIG welding, plasma cutting and gas welding as well. Back of the glove is insulated, while the palm is reinforced with external leather patch. The extended pulse-protector provides added safety.

## 1812

SIZES: L & XL

A true 3-dimensional design with pre-curved fingers offer instant comfort and dexterity. The back of the left hand has an extra-large double shield to protect from heavy sparks and heat. This glove is fully insulated for heavy-duty welding and metal handling.

## 1852

SIZES: L & XL

This is by far the most comfortable glove in welding glove history. The entire glove shell is made of American Whitetail Deer split leather and insulated with wool, which is naturally antimicrobial and wicks perspiration while also providing excellent insulation. Wool is a natural FR (Flame Resistant) material that enhances the safety properties of this glove. Other features include leather reinforcements on the palm and pulse area for added durability and protection.

## 1832

SIZES: L & XL

A heavy-duty glove for heavy-duty metal fabrication and welding operations. Top grain cowhide covers the palm for maximum abrasion and cut resistance. Index finger and palm are reinforced with external patches for maximum durability and protection. Featuring full-sock insulation with FR (Flame Resistant) fleece laminated foam and vent channels for maximum insulation.

## 1816

SIZES: L & XL

“Wasabi”, while being a unique color, has been identified as an extremely comfortable performer. Fully insulated and made with American Whitetail Deerskin. A true 3-dimensional pattern for comfort, palm and thumb saddle reinforcements for durability and a leather pulse protector for added safety. “Wasabi”, a unique glove for professional welders.

## 1871

SIZES: M – XL

A very comfortable medium-duty glove for various metal fabrication, welding, grinding, and other general chores. The entire glove is made of resilient goat grain leather which offers excellent dexterity without compromising durability and safety.

## 1878

## 1878-0

SIZES: L & XL LEFT HAND ONLY

An original design, industry-first 21" welding glove made with American Whitetail Deer split leather on the palm and back providing excellent comfort and dexterity to an otherwise heavy-duty glove.

Most of the palm and thumb areas are double-layered with leather, while the fingertips and back of the glove are reinforced with extra pieces of leather for maximum protection against heat and other elements associated with heavy-duty welding operations.

Industry-first scalloped cuff design offers protection past the elbow while the heavily padded cuff offers comfort during extended leaning on hot and/or hard surfaces.

## 1828

SIZES: M – XL

Designed for metal fabricators, the unlined palm and insulated back is great for tackling multiple tasks like handling metal parts, fabrication, grinding, welding, etc.

Featuring a durable top grain cowhide palm with reinforcements, cow split leather on the back up to the wrist area, and a leather pull tab with hook-n-loop closure placed above the pulse area for added protection.

## 1868

SIZES: S – XL

Made of fine quality goat grain leather that offers ultimate sensitivity and lasting wear, the unlined fingers with FR (Flame Resistant) insulated back makes this glove perfect for TIG welding professionals. The padded palm and exterior leather reinforcements offer comfort and extended glove life.

## 1869

SIZES: S – XL

A very versatile and affordable glove for anything from metal fabrication to backyard chores.

The medium-weight unlined cow grain is perfect for light-duty MIG, TIG, plasma cutting and gas welding.

## 1864

SIZES: S – XL

This medium-weight American Whitetail Deer split glove is ideal for TIG and MIG welding, and even Plasma cutting. Unlined, very supple leather offers an excellent combination of dexterity and comfort. The dyed graphite gray color deerskin has been pre-washed to eliminate lint from the suede. External leather lean/drag patch offers extra protection from hot surfaces.

# 1434

SIZES: L & XL

Constructed with medium-weight but durable top grain cowhide for dexterity and durability. Light insulation makes this glove suitable for MIG, plasma and even stick welding operation. Very versatile due to medium-weight construction, but the external palm reinforcement, long cuff, pulse protection and internal padded palm makes it a very comfortable, safe and durable glove. Our Kontour™ pattern provides additional fit and comfort.

# 1440

ONE SIZE

A common style used in the welding industry for decades. The sock-lined construction, along with the laminated fleece insulation, make this glove perfect for stick welding. Excellent insulation, external palm and thumb leather patch, and lock stitching with Kevlar® thread gives added seam strength for extra safety.

# 1448

ONE SIZE

A true heavy-duty glove for serious welding tasks. All critical areas are reinforced with extra layers of cow split leather. In addition to the foam laminated fleece insulation in full-sock construction, an additional layer of Heatflect™ is sandwiched between the shell and insulation to reflect radiant heat away from the welder's hand. When welding gets tough, you want these gloves.

**HEATfLECT™**  
Aluminized Insulation  
by PRIMAX

# 1449

ONE SIZE - 18"

# 1458

ONE SIZE

A heavy-duty yet comfortable glove with foam laminated fleece lining in full-sock construction for efficient insulation. External palm and thumb reinforcement patch and pulse protector provide additional safety. Metal snap-button tabs allow use with either leather or aluminized back covers for high-heat application.

# 1458-1

Aluminized Carbon Aramid blend base fabric with female snaps. Sold by the each.

\*Glove not included

## 1469

JUMBO SIZE

A heavy-duty welding glove great for cold climates or foundry use. Jumbo sized for large hands or use with a glove liner. Glove features a comfortable straight-thumb with thumb strap, heavy Aerofoam™ insulation and sewn with Kevlar® thread.

## 1459

ONE SIZE

The back of the glove and thumb are made of aluminized rayon to reflect radiant heat from the welder's hands. External leather reinforcement on thumb saddle and palm ensure longer durability.

## 1468

ONE SIZE

An affordable 18" glove. The external leather palm patch and full sock lining with fleece offers safety, comfort and insulation.

## 1485

SIZES: M – XL

This glove combines American Elk grain leather and our Kontour™ pattern for ultimate comfort and long-lasting durability. Features an FR (Flame Resistant) wool insulated back for heat protection, and an unlined palm for maximum feel and dexterity.

## 1420

ONE SIZE

An affordable traditional design with comfortable straight-thumb and thumb strap. Fully sock lined for comfort.

## 1600

SIZES: S – XL

A simple design that comes at an affordable price. This unlined goat grain glove, with our Kontour™ pattern, makes for a very comfortable option for TIG welding.

# BOARHIDE

**BOARHIDE®** Protective clothing is made of premium quality pig split leather.

Boarhide® is 15-25% lighter, stays cleaner, more breathable, and offers better cut, abrasion and heat resistant values than cow split leather of equal thickness. Also, unlike cow split, Boarhide® is naturally elastic which provides for extra mobility.

## 3029 - BLACK BOARHIDE®

SIZES: S – 3XL

Caiman® Boarhide® Jackets are offered in black and gold. The vented back and underarms allow for maximum airflow and comfort. The collar is lined with corduroy for comfort, while the shoulder and upper arm areas are satin lined for friction-free mobility.

## 3030 - GOLD BOARHIDE®

SIZES: S – 5XL

VENTED BACK

UNDERARM VENTILATION

## 3240

40" GOLD

Gold Boarhide® chaps with adjustable waist and leg straps. Riveted stress points for enhanced durability.

## 3136 3142 3148

36" GOLD 42" GOLD 48" GOLD

## 3136-1

36" BLACK

Gold or Black Boarhide® bib aprons feature two chest pockets, two D rings at waist, and a cross pattern adjustable strap with a plastic clip.

## 3242

42" GOLD

## 3248

48" GOLD

Gold Boarhide™ split-leg bib apron with the same features as the bib aprons. Riveted stress points for enhanced durability.

## 3031 - CAPE SLEEVES

SIZES: S – 3XL

## 3032

18" REPLACEMENT  
BIB, 24"W X 18"L

Gold Boarhide® cape sleeves and bibs are a much cooler option when full leather protection is not necessary.

## 3123

23" Black Boarhide® sleeves with adjustable strap and snap-button wrist. Sold by the pair.

## CAIMAN® FR

Soft and pliable FR (Flame Resistant) treated 100% 9 oz. cotton fabric combined with functional features to enhance safety and comfort. Caiman® FR garments were tailored to address obvious complaints of traditional, starchy green FR garments. Affordable, functional and stylish... no need to ever go back.

## 3000 - JACKET

SIZES: S – 5XL

Underarm gussets promote vertical and horizontal arm movements with minimal restriction. The hook-n-loop adjustable stand-up collar has a raised back to provide maximum neck protection. The back of the jacket bottom is extended for added protection. There is also a generously sized inside pocket.

UNDERARM GUSSET

RAISED-BACK,  
STAND UP ADJUSTABLE  
COLLAR

## 3002 - 36" APRON

FR (Flame Resistant) apron has two compartment chest pockets, and an adjustable Comfort-Strap™ ensuring a proper fit.

## 3004 - 18" SLEEVES

FR (Flame Resistant) sleeves that can easily be worn to protect your arms without needing a full coat. The elasticized top, and snap buttons at the wrist, make wearing and securing these sleeves simple and easy. Sold by the pair.

## WELDING BLANKETS

### NEOPRENE COATED FIBERGLASS

Functional and durable 24 oz. blankets protect covered objects and surfaces from sparks and spatter.

**CUT SIZES:**

- 69630 – 6'x6'
- 69632 – 6'x8'
- 69634 – 8'x8'

### CARBONSILK™

These 16 oz. nonwoven, carbon felt blankets offer sufficient protection and insulation in most welding environments. The non-scratch and pliable material comes in different cut sizes or in rolled goods. Offered in various sizes.

**CUT SIZES:**

- 69664 – 18" x 18"
- 69665 – 4'x6'
- 69666 – 6'x8'
- 69667 – 8'x10'

**ROLL GOODS:**

- 69668 – 6'x50'
- 69669 – 4'x50'

### SILKGLASS™

This heat cleaned fiberglass welding blankets are soft and pliable with a high silica content for fire and thermal protection. Offered in various weights and sizes.

**CUT SIZES:**

- 69641 – 4'x6', 18 oz., Medium Duty
- 69642 – 6'x8', 18 oz., Medium Duty
- 69661 – 6'x6', 26 oz., Heavy Duty
- 69682 – 6'x8', 26 oz., Heavy Duty
- 69662 – 6'x6', 52 oz., Extra Heavy Duty

**ROLL GOODS:**

- 69645 – 4'x50', 18 oz., Medium Duty
- 69646 – 5'x150', 18 oz., Medium Duty

## WELDING SCREENS

6'x6' quick set metal frame, UV protection.

- 69700 – Red
- 69701 – Blue
- 69703 – Gold
- 69703 – Green

## CABLE COVERS

### CUSTOM LENGTH LEATHER

Offered in the size you need (per foot). Made with genuine heat and abrasion resistant leather. Snap button closure and sewn with Kevlar® thread to ensure durability. 1¼" diameter.

- 66996 – Sold by the foot

### LEATHER

The hook-n-loop closure is sewn with Kevlar® thread and made of genuine heat and abrasion resistant leather for extended service life.

- 66993 – 20'
- 66994 – 25'

### NYLON

Made of a heavy-duty flexible nylon webbing with a durable plastic zipper to ensure full closure.

- 66990 – 10'
- 66991 – 22'
- 66992 – 30'

## ALUMINIZED PROTECTOR

### 60723

6"x8" aluminized glove protector extends the life of the glove while keeping your hands cool during welding. Aluminized fiberglass outer layer with a coated fiberglass inner layer. Two straps are included to fit comfortably over any welding gloves.

## LEATHER ELECTRODE HOLDERS

### 3250 - GOLD BOARHIDE®

### 5450 - BROWN COW SPLIT

These leather welding rod holders come with belt loops and metal swivel snaps on top. Double stitched with Kevlar® thread and riveted for extra strength and durability.

## CAIMAN® SWEATBANDS

### 60716

Made of 13.5 oz. highly absorbent cotton fleece backed with foam for comfort. Hook-n-loop closure. Packed 2 each.

### 60704

Made of soft and comfortable wool that naturally prevents odor from sweat build up. Snap buttons secure sweatband to helmet headgear.

## CAIMAN GEAR BAGS

### 66980

Gatormouth™ is a heavy-duty framed top-opening tool/gear bag that has multiple compartments as well as mesh pockets on the outside for content visibility. The shoulder strap makes it easy to transport your tools, while the double-layer waterproof coated fabric and double heavy-duty zippers make this a very rugged tool bag for any jobsite.

### 66981

Generously sized (13"wx13"hx24"l) duffel bag is large enough to hold most carry-on luggage, making it excellent for traveling or welding gear including helmet and protective clothing. The bag has double zippers and PU coated fabric to repel water.
