

2019 WORKBOOK
36 YEARS OF TENACITY

**INTO THE GREAT
WIDE OPEN.**

A KLEIN TOOLS COMPANY

They say when Alexander the Great saw the breadth of his domain he wept, for there were no more worlds left to conquer*. (Somebody get that guy a hanky and a cold compress!) As far as we can tell, the map is forever full of wide-open territory just begging to be explored. Alex just wasn't looking hard enough.

When we survey the expansive landscape, we see endless possibilities under that sky so blue. Though we know it's not a clear path. The seemingly never-ending sweat and toil of the workzone coupled now with a digital dollop of technology and automation presents a serious test of our mettle. How do we continue to keep workers safe, comfortable and productive? A challenge to be sure. But one we've accepted wholeheartedly – putting one foot in front of the other on an innovation quest through parts unknown, 35 years of freshly cleared trail behind us.

Will it be easy? No. But it shouldn't be. It's hard. And the hard is what makes it great. The breakdowns, the elusive solutions to unforeseen problems, the hidden discoveries. That's what makes this a campaign worth embarking on.

There are new lands to explore. More safety hazards to conquer. A tireless legion of men and women trusting us to cover their you-know-whats with more than BS superlatives and subpar solutions. And we're not here to let them down. Consider this a mission statement of our manifest tenacity.

Don't read this and weep. Read it and buckle up. Let's set the controls for the sun, put our collective pedals to the metal – and together let's make this big ol' place a better one.

*Well, Hans Gruber said it in 'Die Hard'. But it sounds good.

THE SOUND OF SAFETY

Raindrops on roses and schnitzel with noodles is fine and dandy if you're trying to hit high E above middle C atop the Alps. But here in the trenches of the workplace our favorite things start with PPE. These are the three pillars of safety upon which our Tenacious Work Gear® is built.

PROTECTION

ERGODYNE GEAR IS THERE FOR YOU WHEN THE DOG BITES AND THE BEE STINGS. AND IF YOU'RE FEELING SAD SHOOT US A DM AND WE'LL TALK IT OUT.

PREVENTION

IT'S THE BEST DEFENSE AGAINST WORKSITE WHOOPSIE-DAISIES AND OH SHITS, AND WE GOT THE GOODS TO KEEP YOU AND YOUR CREW SAFE, SOUND AND WORKING IN HARMONY, VON TRAPP-STYLE.

ELEMENTS

AND LAST BUT NOT LEAST, WE'RE HERE TO GET BETWEEN YOU AND THE ELEMENTS. WE'RE TALKING EVERYTHING FROM GALE-FORCE WINDS TO MORALE-MELTING HEAT WAVES. LET US DECK YOU OUT IN SOMETHING A LITTLE MORE ADVANCED THAN WARM WOOLEN MITTENS TO TAKE THE EDGE OFF.

Put it all together and you're running at peak PPE performance, ready to climb every mountain and ford every stream. Let's Make the Workplace a Betterplace™.

ergodyneCONNECT™

GET CONNECTED

WITH ONSITE RISK TRAINING, ONLINE RESOURCES AND SAFETY ANALYTICS MANAGEMENT

Since 1983, we've been utterly obsessed with and intensely committed to the safety community. Not like in a crazy cook-your-daughter's-pet-bunny *Fatal Attraction* kinda way, but still... we're dead serious about Making the Workplace a Betterplace™ (and we will **NOT** be ignored).

To deliver on that mission takes way more than creating quality safety work gear (even top-flight, battle-tested Tenacious Work Gear®). It takes a full commitment to deeply knowing what safety managers and their crews are up against day after day, and then helping them connect with the people, the resources, the strategies to lift them all up to a higher standard of safety.

SAFETY ANALYTICS MANAGER BY ERGODYNE (SAM-e)

What if your PPE had a brain, could think and even talk? What if it alerted workers to dangerous situations before they caused harm? What if that PPE became self-aware and organized with other PPE to revolt against its human overlords? Ok don't worry about that last one (yet). But the first two – and so much more (did someone say real-time alerts?) – aren't as far off as you think with SAM-e, a new innovative Safety Analytics Manager by Ergodyne powered by Corvex Connected Safety.

CONNECTED
SAFETY

FIELD-BASED
EDUCATION

DIGITAL
SUPPORT

IT'S MORE THAN JUST (REALLY GOOD) GEAR.

CONNECTING YOU WITH THE PEOPLE, RESOURCES AND STRATEGIES
TO GET THE JOB DONE AND THEN SOME.

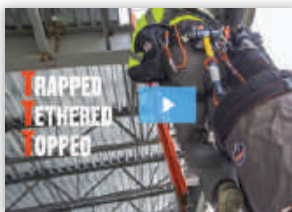

ONSITE TRAINING

Just listen for the rumble of the Tenacious Assault Vehicle (TAV), our 400 horsepower all-terrain classroom. Behind the wheel: a safety pro ready to deliver a demo to thrill the senses, dazzle the mind and eliminate whatever knowledge gaps may be keeping your crew from achieving peak safety performance.

TENACIOUS UNIVERSITY

Ergodyne product training, in-depth safety bulletins, detailed product overviews and more. Whether you're on campus for an in-person education, engaging with webinars, or absorbing white papers in our online Tenacious-U Library, we're here with the content needed to feed that insatiable hunger for knowledge.

VIDEO LEARNING

We're out pounding the pavement, producing down and dirty vids to keep you in the know about our product ins and outs. But we don't stop there. We've got authentic, end user, "proof of the pudding is in the eating" videos to showcase our gear hard at work. Don't believe it? Just watch.

TENACIOUS BLOG

The place for industry insights from experts and everymen. To get the skinny on safety, you gotta read our Tenacious Blog for the latest news and info on industry topics, trends, regulations and more.

Whether it's in the field with face-to-face training; digitally supporting safety initiatives with downloadable content for the jobsite; or connecting and communicating with enabled PPE, **ergodyneCONNECT** does exactly what it says – connecting the dots between the gear, the worker and the workplace; going beyond compliance and setting a higher standard for jobsite safety.

TAKE THE GUIDED TOUR.

No Segways, headsets or slack-jawed tourists wielding selfie-sticks and regrettable fashion choices. Just a step-by-step, follow-the-yellow-tape tour through the wondrous pages you hold in your hand. Pay attention to the guide and you'll have all the answers you need amongst the endless array of features, benefits and model numbers. And if you're more of a 1's and 0's type, check out our website for all things social-centric, downloadable and otherwise digital. Now please do keep up with the group and remember to exit through the gift shop.

MODEL NUMBER

If we remember correctly, it goes Kingdom, Phylum, Class, Family, Order, Genus, Model Number. Right?

TECH TAGS

Sure, it looks cool. But what does it do? Use our handy tech tag icons and wonder no more.

// PATENT PENDING

PATENT DESIGNATOR

Thomas Edison had 1,093 of these bad boys. We're hot on his tail.

ERGODYNE IN PIXELS:

AC/DC, Lithium Ion ... however your device is powered, know that it longs to use that energy on the Ergo website. Full product info, Tester reviews, video content. It's all here. Oh yes it is. Enjoy.

ERGODYNE IN PRINT:

Here's the long and short of Ergo info presentation in the beloved workbook. Learn it. Live it. Love it.

ORDER MULTIPLE

You're ordering by the case, my friend. Check here for case quantities and minimum order requirements.

PRODUCT NAME

What's in a name? How about trust, reliability, quality, integrity, accountability, notoriety, recognition? Must we go on?

PRODUCT PHOTO

Our gear is ready for its close-up, Mr. DeMille. And we've made sure to get its good side.

SPECIAL SHOUT-OUTS

If a product meets the requirements of ANSI, ASTM, or any other industry standard, we'll display those badges as proudly as a Boy Scout.

FEATURES & BENEFITS

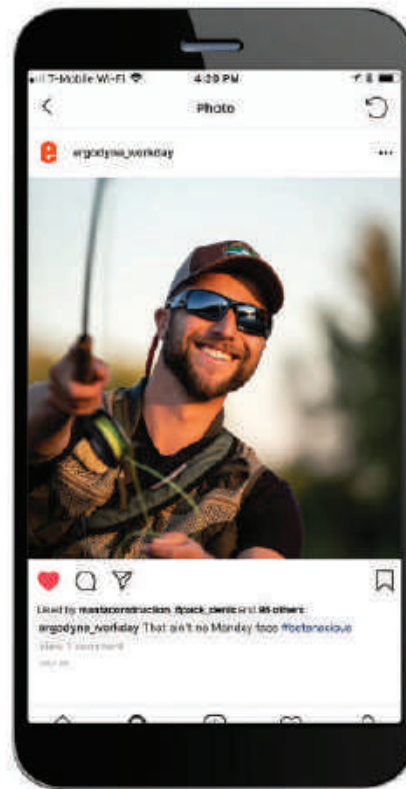

If it can withstand the freeze, block out the sun, or lay golden eggs, we'll let you know about it.

ITEM NUMBERS

Item Numbers – the universal language. Use these to speak our native tongue and get exactly what you need.

#CAPTIONGAMESTRONG

If you remember your password, you can still log in to your old MySpace page. We don't recommend it though. Those bathroom-mirror selfies (taken with an actual camera) weren't nearly as flattering as we thought at the time. And that Dawson's Creek wallpaper? Well...all we can say is people change, OK? Point being, we've moved on. We're doing it for the Gram, as the kids say. And though we've swapped out our Top 8 for filters, boomerangs and stories, it's still good to know we have a forever friend in MySpace Tom.

SHARE IN THE DIGITAL GLORY

Got a sick shot of our gear in action? Want in on exclusive reviews, giveaways, sneak peeks and otherwise incredibly engaging mobile content? Join us @ergodyne_workday and share in the digital glory.

VISIT OUR WELL-OILED WEBSITE

Faster than ever and constantly being optimized, even a troglodyte can navigate our super-slick responsive-design website on any device. On ergodyne.com, you can get the full scoop on all our Tenacious Work Gear®, sign up to attend training or win our latest giveaway, and so much more. It's such a comfortable user experience, we're seeing more traffic than the L.I.E. on a summer Friday.

GET SOCIAL WITH US

Got Ergodyne FOMO? Follow us and cure what ails you. Don't know what FOMO is? Tweet us and we'll tell you.

WHAT IT IS.

QUICKLY IDENTIFY THE ATTRIBUTES
THAT MATTER TO A PRODUCT OR RISK.

TECH TAGS

PERFORMANCE AND REGULATORY TAGS

If it's important it usually has a tag. Cattle, your luggage, Lil Xan's face (ask your kids). They're all tagged and bagged and ready for examination. With our handy Tech Tag system you can say the same about all of our premium Tenacious Work Gear®. Check the tags for any performance or regulatory considerations.

CUTTING LIKE A KNIFE IS FINE FOR BRYAN ADAMS. BUT IT AIN'T ALLOWED HERE.

Cut-resistant gloves are a dime a dozen, but most are stiff as a single-malt neat. Not ProFlex® Hand Protection. Tested to the latest CR standards and designed to protect against cuts, slashes, lacerations and abrasions, ProFlex® CR Gloves boast Amortex® and other cutting-edge materials to defend your digits without reducing dexterity. Give 'em a shot, and we'll have you believing way beyond a shadow of a doubt.

TASTE THE RAINBOW: COLOR-CODED FUNCTIONALITY

All ProFlex® Gloves are designed to perform and built to last. But sometimes, the job requires that little extra somethin' to help handle your specific hazard. Technical adds like + Touch Screen and + Cut Resistance are found across the line with a color-coded system to show you the way.

ORIGINAL MODELS

The tried and true originals. Whether standard or heavy-duty, you know you're getting the latest in design, materials, and technology. Look for orange accents and know you've got the best of the basics.

+HI-DEX

It's all about control and feel. A super-thin palm, 50% thinner in fact, provides maximum dexterity while maintaining abrasion resistance and durability. Look for yellow accents when no job is too small.

+TOUCHSCREEN

In today's workplace, the touchscreen device has become another tool of the trade. Touchscreen-capable palms and fingertips allow you swipe, tap, and type while staying protected. Look for green accents and you're money ... Silicon Valley money.

+CUT RESISTANCE

When sharp edges and cut hazards crank up the intensity level, so do ProFlex® Gloves. Glove palms featuring state-of-the-art materials like Armortex® provide protection in the toughest applications. Look for red accents for no red accidents.

+GENUINE LEATHER

Want a softer, natural feel without sacrificing protection? ProFlex® Gloves with genuine leather reinforcements deliver all the features of their original counterparts but with genuine leather reinforcements. Look for tan accents for an old-school look that still packs a punch.

+THERMAL

Because work doesn't stop when the temperature drops, there's ProFlex® Thermal Gloves. With or without waterproof tech, in black or hi-vis and even a flip-top mitten option, look for blue accents so your winters don't have to be, well...blue.

+ TACTICAL + TOUCHSCREEN

For all your stealthy special ops. ProFlex® Tactical + Touchscreen allows you to stay protected and connected with a low profile, blacked out color scheme.

LABELING 101: THE HANDBOOK ON HAND PROTECTION

EN388: 2016

All ProFlex® Gloves are tested to EN 388, measuring and scoring four “mechanical risks”: abrasion, cut, tear and puncture. Gloves engineered to provide enhanced cut protection are also tested to cut-resistant standards ISO 13997 and ANSI/ASTM F2992. Select Dorsal-Impact Reducing Series Gloves meet the impact protection criteria of EN 388. Select Anti-Vibration Gloves meet ISO 10819/ANSI S2.73, the global standard for anti-vibration. All this info can be found on the interior label of our gloves.

Confused? Read on!

- Abrasion Resistance (0-4)
- Blade Cut Resistance (0-5)
- Tear Resistance (0-4)
- Puncture Resistance (0-4)
- ISO Cut Resistance (A-I; X = Not tested)
- Impact Protection (P = PASS)

ANSI 105-2016 // ASTM F2992-2015

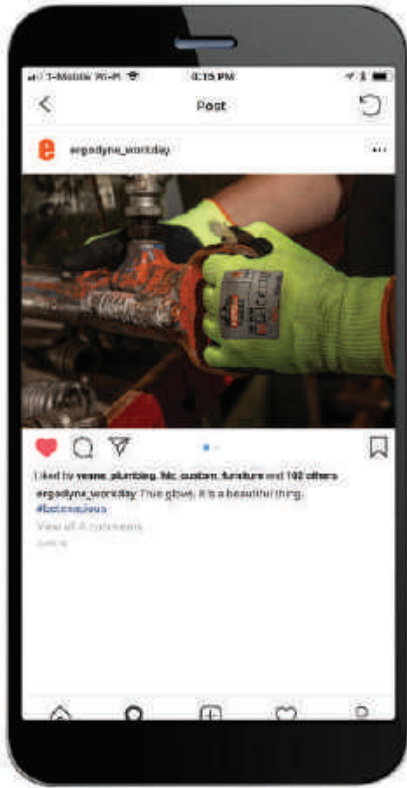

ANSI/ASTM Cut Protection is noted as: **ANSI/ASTM CUT LEVEL A#**
(Levels A1-A9)

ISO 10819:2013 / ANSI S.2.73-2014

Compliance with the ISO 10819:2013 Vibration-Reducing standard is noted as: **ISO 10819:2013 ANSI S.2.73-2014**

HAVS IT YOUR WAY

AND REDUCE THE RISK OF HAND-ARM VIBRATION SYNDROME

Certain models in Ergodyne's Anti-Vibration Series meet the strict requirements of ISO 10819-2013/ ANSI S2.73-2014, the global standard for anti-vibration gloves that serves as the last line of defense in the fight against HAVS. Choose from three different models with AVC™ (Advanced Vibration Control) Technology in the palm to suit your vibration situation.

9002

ANSI/ISO-CERTIFIED FULL-FINGER ANTI-VIBRATION GLOVES

There's nothing basic about this base model. Full-length AVC™ Padding reduces harmful vibration from tools and equipment while the gripping palm provides a secure hold on handles and controls. Glove up and go.

ANSI/ISO-CERTIFIED ANTI-VIBRATION GLOVES + WRIST SUPPORT

Vibrating tools are often heavy and the tasks they tackle can cause repetitive motion strain. Talk about double trouble. Featuring a built-in wrist support with patented Open-Center Stay™ to go with an AVC™ Palm, the 9012 offers maximum protection and support.

9015F(x)

ANSI/ISO-CERTIFIED ANTI-VIBRATION GLOVES + DIR PROTECTION

From jackhammers to Jack's hammer, sometimes vibration on the palm also comes with hazards to the backside (of the hand). Molded TPR armor on the 9015F(x) protects the dorsal area from flying debris and impacts as AVC™ Padding does its AV duty.

PICK THE RIGHT PAIR: A SAFETY MANAGER'S GUIDE

Protecting those meat hooks from the assorted daily calamities they face at work is critical for a jobsite's efficiency and performance. But picking the right pair isn't always an easy choice.

STEP 1)

DO A JOB HAZARD ANALYSIS // Start with a systematic breakdown of a particular task's steps and the hazards associated with each step.

STEP 2)

AVOID OVERWHELMING WITH OPTIONS // Offer workers 3-4 quality choices and let them pick. Comfort is often as important as the glove's characteristics, and that is generally a matter of personal preference. Unless the task is very specific and safety-sensitive, you don't need to require a specific glove.

STEP 3)

RULE WITH AN IRON FIST // If the job and the hazard DO require a specific type of glove, then require their use and explain why. Examples: High cut hazards; prolonged vibration and impact exposure.

STEP 4)

KEEP THE SUGGESTION BOX OPEN // Welcome feedback from the crew. When workers can pick their safety equipment, they are more likely to actually wear it. Kinda the whole point, right?

TAKE A KNEE.

**PROFLEX[®]
KNEE PADS**

PROFLEX® KNEE PADS

If you're betting on medical science to cure your chronic knee pain you'd better hedge that bet, my friend. How are they doing on the common cold, by the way? Yeah, we thought so. Why not wager in favor of ProFlex® Knee and Kneeling Pads? Cushy, forgiving and available in an array of lightweight gels and comfortable hard cap designs, it's a safe bet they'll get the job done.

PATENTED OPEN-CENTER STAY™

Unlike traditional stay configurations positioned directly over the carpal tunnel, our stay is uniquely designed with an open center to reduce pressure on the median nerve. With a contoured design that follows the wrist's natural shape, the patented, molded stay offers greater worker comfort and compliance.

SHINY HAPPY PEOPLE.

GLOWEAR[®]

HI-VIS APPAREL

GLOWEAR® HI-VIS APPAREL

That's you in the corner, that's you in the spotlight, losing your chances of being flattened by a Mack truck on I-85. That's because you're rocking GloWear® Hi-Vis Apparel. This gear is ANSI-compliant, sometimes flame-resistant and always available in a variety of garment types, designs and sizes. With GloWear®, NOBODY hurts due to low visibility. And yes, we know the frequency. Stop asking.

BADGE OF HONOR? THINK AGAIN.

YOUR POINT OF PRIDE IS MISSING THE POINT.

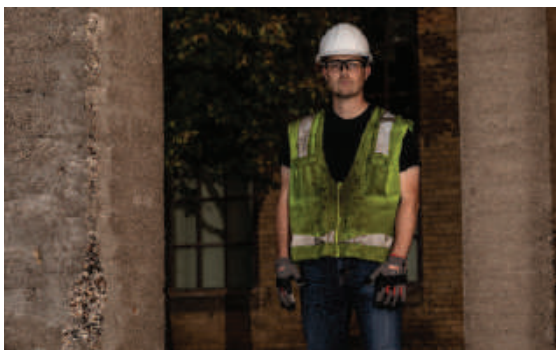

Too cool to wear a bright, shiny (reflective) vest on the job? Afraid you'll look too much like a wide-eyed, coffee-fetching rookie? Time for a reality check, you ol' grizzled vet you. It seems your point of pride is missing the point. If you're not seen, you're at risk. With experience comes wisdom, act like it and stay visible.

NO HI-VIS:

// WE'RE NOT EVEN GOING TO ENTERTAIN SUCH A LUDICROUS SCENARIO.

OLD HI-VIS:

// BETTER THAN NOTHING, BUT NOTHING IS A PRETTY LOW BAR. LIKE, THE LOWEST.

NEW HI-VIS:

// HOOO-WEE! AREN'T YOU JUST AN INCREDIBLY EASY TO SPOT SIGHT FOR DISTRACTED EYES.

**ANSI'S
GENERAL THEORY
OF CONSPICUITY**

MUCH KNOWLEDGE IS CONTAINED IN A SIMPLE EQUATION: 2 + E = 3!

You can obtain Class 3 compliance in one of two ways. The most obvious is to buy an ANSI 107 Class 3 compliant garment. The less obvious—but more popular route—is to wear a Class 2 garment (usually a vest) and pair it with Class E compliant bottoms. Either way, you are clearly high-class.

MAKE IT CUSTOM!

**HERE'S THE DRILL:
CUSTOM LOGO PROGRAM**

Because we have so many options and styles of products available to custom logo, we can do almost anything.

YOU GIVE US:

- Suitable digital art files or camera-ready artwork. (EPS-format files work best but large, hi-res TIF or JPG files [300+ dpi] work too.)
- All necessary PMS/Pantone colors.
- Approval of a digital mock-up.

WE GIVE YOU: A product with a look all your own.

Minimums vary based on the type of product.
Don't worry, it's low.

Call Ergodyne Customer Support today to answer all your custom logo questions ... we'll make it easy for you to look good!

EYES ON THE PRIZE.

SKULLERZ[®]
EYE PROTECTION

SKULLERZ® EYE PROTECTION

No one knows what it's like behind blue eyes. Okay. But we're more interested in what's IN FRONT of those baby blues. That's why we're singing the gospel of Skullerz® Safety Glasses – with ANSI compliance across the board, MIL-PRF ballistic impact protection that comes standard, and CSA compliance on a full five models. Each one boasts UV protection, scratch resistance, lightweight frames, and a host of condition-specific lenses, options for inherent, permanent Fog-Off™. With Skullerz® you'll have an eminence front against danger.

SKULLERZ® HEAD PROTECTION

Don't knock it til you've tried it. Because once you've tried it you won't knock it. Your noggin that is. All those self-inflicted donks, doinks, dings and bell rings can get pretty nasty (and may we say, make for one regrettable Google image search). Skullerz® Bump Caps – featuring multiple hi-vis colors, hands-free LED lighting capability and ball cap inserts – offer an array of lightweight, brain-buffering options to safeguard your skull against, well, yourself.

A LITTLE PREACHING IS BETTER THAN A LOT OF PRAYING.

DROPPED, FALLING AND FOREIGN OBJECTS

Tiny bolt or bulky burke bar, just add gravity and disaster looms. Defy it at your own risk.

HOUSEKEEPING

Keep it clean, people. When things aren't in their proper place at heights, bad stuff happens.

EQUIPMENT TRANSPORT

How you get tools to and from heights matters. Hint: That cheapie 5-gallon bucket ain't gonna cut it.

THE RISING COSTS OF DROPPED OBJECTS

ESTABLISHING BEST PRACTICE

ANSI/ISEA 121-2018:

ANSI/ISEA 121-2018 is a standard that consists of design, testing, performance and labeling requirements for tool tethering systems and containers used to transport and secure tools and equipment at heights.

THE FOUR CATEGORIES OF EQUIPMENT COVERED IN THIS STANDARD ARE:

- » ANCHOR ATTACHMENTS
- » TOOL ATTACHMENTS
- » TOOL TETHERS
- » CONTAINERS

VISIT ERGO.ZONE/DROPS FOR MORE ON THE STANDARD, SOLUTIONS AND RESOURCES

CONTAINERS:

Bags and buckets used to transport tools and equipment to and from at-heights work zones. Tool pouches, bags and hoist buckets/bags should have a secure closure or "top" that can cover contents and prevent them from spilling if tipped. If a container does not have a secure closure it must have tethering points available.

TOPPED

TETHERED

TOOL TETHERS:

Tethering is the retention of the tools and equipment being used to the anchor points that hold them, most commonly with a tool lanyard. These lanyards should have the proper connections on each end for the tools and anchors being used. They should also be made with a shock absorbing design whenever possible.

TOOL AND ANCHOR ATTACHMENTS:

Retrofit attachment points installed onto tools, equipment or fixed anchor locations for connecting lanyards. Most tools do not come with a secure attachment point built into the tool. In these situations, a secure attachment point must be created.

LEARN FROM THE LABELS: 121 LABEL LESSONS

TOOL & ANCHOR ATTACHMENT LABELS

STANDARD LISTED ON THE PRODUCT LABEL TELLS YOU IT HAS BEEN TESTED AND COMPLIES WITH THE STANDARD.

ERGODYNE TETHERING SYSTEMS ARE COLOR COORDINATED BY CAPACITY RANGES. TOOLS THAT ARE 5LBS / 2.3KG OR LESS ARE ALLOWED TO BE TETHERED TO THE BODY, SOLUTIONS RATED FOR 5LBS / 2.3KG OR LESS HAVE LABELS ACCENTED WITH GREEN. OTHER COLORS HELP YOU DIFFERENTIATE ADDITIONAL RANGES.

LANYARD LABELS

THE "TETHER LENGTH" OF THE TOOL LANYARD MUST BE EQUAL TO OR SHORTER THAN THE "MAXIMUM TETHER" ALLOWED TO BE USED WITH THE TOOL OR ANCHOR ATTACHMENT.

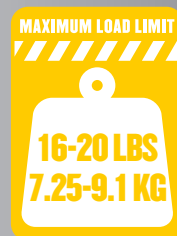

ANSI/ISEA ICON PRODUCTS FEATURING THIS LOGO TELL YOU IT HAS BEEN TESTED AND MEETS THE STANDARD.

COLOR COORDINATE FOR QUICK, EASY IDENTIFICATION

ERGODYNE O@H SOLUTIONS ARE COLOR COORDINATED BY CAPACITY RANGES. GREEN INDICATES IT'S OK TO TETHER TO YOUR BODY.

LIGHT ← → HEAVY

OK TO ANCHOR TO USER'S BODY

MUST ANCHOR TO SEPARATE STRUCTURE

WORK GEAR

ARSENAL® GEAR & TOOL STORAGE

Ok, we can admit it. We have issues. For instance, we cannot sit idly by while you traverse the back trails, highways and byways getting work done with sub-standard storage solutions. Can you blame us? We're over here sitting on the Fort Knox of high quality, rugged and versatile storage solutions. Our wide line of packs, bags and buckets are designed, equipped, and tested for the toughest of conditions. So please, ease our Ataxaphobia (Google it) and get your gear together with Arsenal® Gear & Tool Storage.

EQUIPMENT TRANSPORTATION 101: THE DO'S AND DON'TS OF DROPS

RISKS Risks associated with poor equipment transportation

SPRAINS OR STRAINS

Many times, workers try to bring all their tools and equipment to heights in case they need something they don't anticipate. This can lead to them overloading themselves while climbing, taking a toll on the body.

FATIGUE / EXHAUSTION

That toll may not lead to a muscle pull or strain, but trying to carry too much up during a long climb on a hot day could stress the body in other ways. Stress or exertion - coupled with extreme conditions like heat - can be dangerous.

FALLING OBJECT / STRUCK-BY

Improperly carrying equipment to heights like holding tools in your hands, slipping them into your pocket or not securing them when hoisting can easily lead to those objects taking a tumble below.

FALLS TO LOWER LEVEL

Too much weight on a worker can drag them down, not having a lifting plan in place for hoisting can swing a load into someone, or not storing equipment in an organized fashion while at height can lead to trip hazards - all causing a potential slip, trip or fall.

BEST PRACTICES Equipment transportation best practices to mitigate those risks.

- // NEVER CARRY OBJECTS IN YOUR POCKETS
- // ALWAYS MAINTAIN THREE POINTS OF CONTACT (NEVER CARRY A CONTAINER IN YOUR HAND)
- // LIMIT THE WEIGHT ON A WORKER'S BODY (HOIST, IF POSSIBLE)
- // USE CONTAINERS WITH SECURE TOPS AND/OR TETHERING ANCHOR POINTS
- // USE MECHANICAL ADVANTAGE TO HOIST, IF POSSIBLE
- // HAVE A LIFT PLAN IN PLACE — REGARDLESS OF IF A CRANE IS BEING USED

CERTIFIED EQUIPMENT There are hundreds of bags, buckets, pouches and holsters out there, but your standard five-gallon pail ain't gonna cut it up there. Portable containers that are hoisted and stationary containers that are carried must be rated.

STATIC TESTING Portable and stationary containers should be statically pulled or loaded with a 5:1 safety factor.

INVERTED STATIC TESTING Containers designed to carry contents that cannot be tethered should have a top or closure that is tested upside down to a 2:1 safety factor.

DYNAMIC TESTING Containers should have drop testing done on attachment points at a 2:1 safety factor for all points meant to anchor tool lanyards.

ARSENAL® TOOL RIG WORKSHOP

If the hairs on the back of your neck stiffen when you see a hex bolt mixed in with the wood screws, we feel your pain. To that end, we've curated a collection of pouches, belts, organizers, rollups and you-name-its to get you footloose and clutter-free. Whether you're wiring, fitting pipe or reroofing, we've got gear to fit your every need. Arsenal® Tool Storage is your key to organizational oneness.

ARSENAL® ASSEMBLE YOUR OWN: Have it your way. Build your ideal tool rig with our individual components. Boom.

BELT

POUCHES

ARSENAL® PRE-ASSEMBLED: We know a thing or two, and we build that into our pre-rig kits. Enjoy.

CHILL-ITS® COOLING PRODUCTS

Sim Sala Bim. We will now divine for you the answer to one of life's great hermetically sealed mysteries by tapping into the river of unconscious thought and universal knowledge. The clues are revealing themselves: cucumbers, the other side of the pillow, a polar bear's toe nails. Ah, the answer is: "What are things you will be cooler than when rocking CHILL-ITS® cooling products on the worksite this summer." Hey-oh!

COOLING PRODUCTS // HYDRATION SERIES

CHILL-ITS® COOLING:

THE ANATOMY OF CHILL FACTOR X.

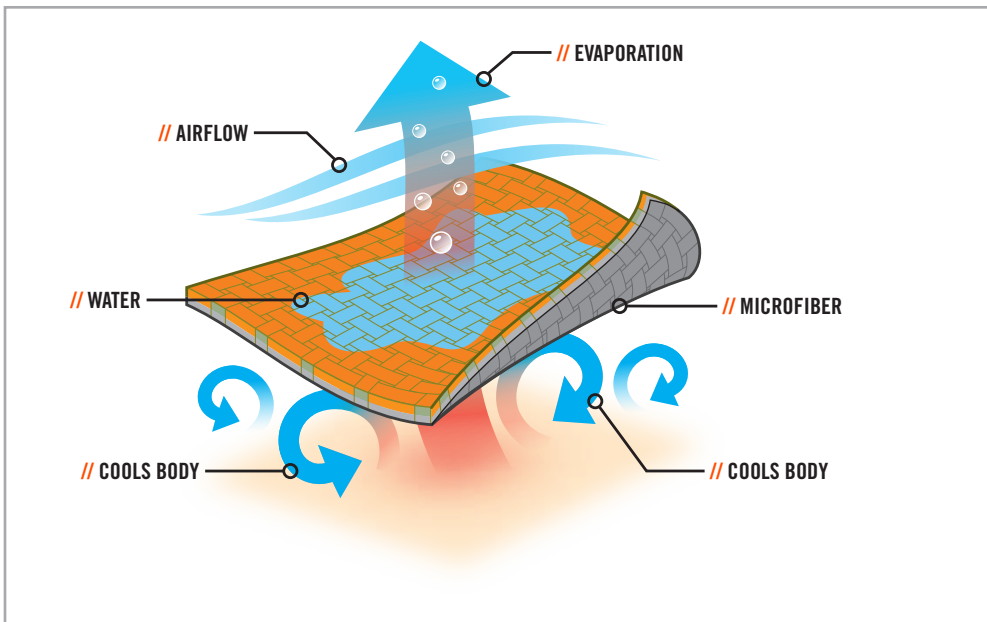

DRY EVAPORATIVE TECHNOLOGY:

100% DRY, COOL COMFORT.

ACTIVATION:
Fill vest or cap with water

COOLING DURATION:
Up to 3 days

EXPECTATIONS:
Inner membrane evaporates from the inside out so the user stays dry, cool, and comfortable. Machine washable with cap closed.

MICROFIBER COOLING TOWEL (MF):

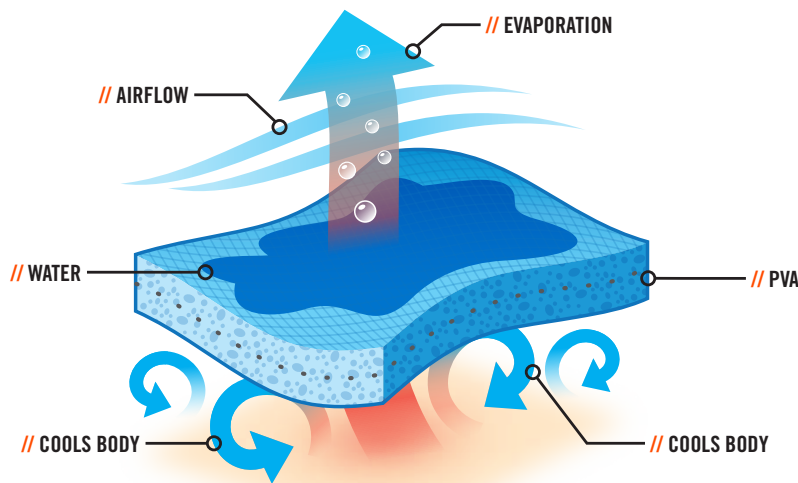

A SOFT TOUCH THAT'S HARD TO BEAT.

ACTIVATION:
Run under water

COOLING DURATION:
Up to 3 hours

EXPECTATIONS:
Fibers hold water while maintaining lightweight and soft feel. Reusable, machine washable.

FOUR DIFFERENT TECHNOLOGIES. ONE PURPOSE: KOOLIN' THE GANG.

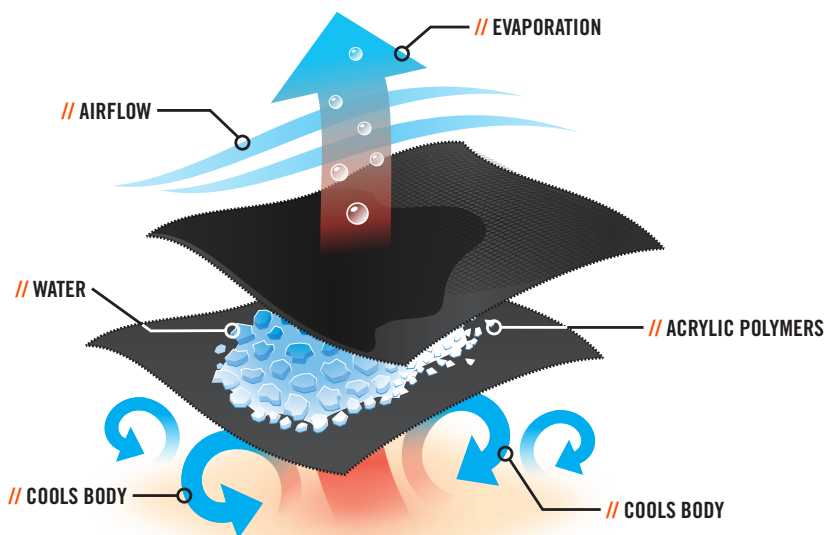

PVA COOLING TOWEL (CT):

**SUPER ABSORBENT.
HYPER EVAPORATIVE.
WICKED COOL.**

ACTIVATION:
Run under water

COOLING DURATION:
Up to 4 hours

EXPECTATIONS:
Sponge-like feel. Excellent water retention (the key to cool) without getting bulky. Reusable, machine washable.

ACRYLIC POLYMER CRYSTALS:

**THEY PLUMP WHEN
YOU CHILL 'EM!**

ACTIVATION:
Soak in cold water 2-5 minutes

COOLING DURATION:
Up to 4 hours

EXPECTATIONS:
Polymers plump and expand. Squishy to the touch. Reusable, hand wash only.

CHILL-ITS® COOLING:

EVAPORATIVE SERIES

FIND OUT MORE ABOUT THE TECHNOLOGY THAT GOES INTO THE FULL LINE OF ERGODYNE COOLING PRODUCTS AT: ERGODYNE.COM

DRY EVAPORATIVE TECHNOLOGY EXPLAINED...

HOW DOES THE DRY EVAPORATIVE TECHNOLOGY WORK?

1. Activate vest or cap
 - Fill vest or cap with water and distribute water evenly
2. Inner dry tech membrane does its thing
 - Technology gradually releases water through evaporation from the inside out – keeping you, cool, comfortable, and most importantly, dry.

HOW COOL WILL IT GET?

- Will cool up to 15°F (10°C) below ambient air temp
- *Note: high levels of humidity (60-80%) can affect cooling ability

HOW MUCH WATER IS NEEDED?

- Vest: 16 – 20 oz depending on size (400-600ml)
- Hat: 3 oz (89ml)
- *Note: more water ≠ better cooling, DON'T OVERFILL.

HOW LONG DOES THE COOLING EFFECT LAST?

- Up to 3 days depending on environment.

HOW TIGHT SHOULD THE VEST FIT?

- As close to the skin as possible – the closer it is, the more cooling you feel
- Recommend wearing over a lightweight t-shirt

CAN THE VEST BE WORN UNDER OTHER GARMENTS?

- The vest needs airflow to breathe so a mesh vest is fine, but heavier layers are not recommended.

DO I NEED TO CLEAN THE INNER MEMBRANE?

- NO! Leave it be. It has an anti-microbial treatment that will keep itself clean and free from any bacteria or fungal growth.

CAN I WASH THE PRODUCT?

- You sure can, but keep that cap CLOSED.

REFLECTIVE STRIPING FOR INCREASED VISIBILITY

PHASE CHANGE COOLING – NO AIRFLOW REQUIRED

ADJUSTABLE TO FINE-TUNE YOUR FIT

6215HV

PHASE CHANGE TECHNOLOGY

WHAT IS THIS THING, ANYWAY?

UP CLOSE & PERSONAL WITH THE PHASE CHANGE VEST:

- KEEPS WORKERS COOL + PRODUCTIVE.
- MAINTAINS A CONSISTENT TEMP. NO MORE. NO LESS. LASTS FOR UP TO 4 HOURS REGARDLESS OF OUTSIDE TEMP. (2 HOURS ON 6250 MODEL).
- FR PROTECTION ON PREMIUM MODELS.
- UNLIKE EVAPORATIVE PRODUCTS, THERE IS NO AIRFLOW REQUIRED FOR COOLING!
- IDEAL FOR EXTREME HEAT APPLICATIONS: FOUNDRIES, GLASS MANUFACTURING, PAPER AND PULP.

DIFFERENTIATED BY DESIGN

300D AND 200D POLYESTER CANOPY OPTIONS WITH WATER AND UV RESISTANT COATINGS

REFLECTIVE AND REINFORCED

MEETS THE CPAI-84 FLAME RESISTANCE CODE

ADJUSTABLE MECHANICS

10X10 AND 10X20 FOOTPRINT OPTIONS

DURABLE STEEL FRAME

What is CPAI-84??

The CPAI-84 (Canvas Products Association International) Standard is widely used in the industry and has been adopted by states such as California and New Jersey. It provides testing methods for evaluating the flame resistance of fabric and other pliable materials in camping tentage. It also provides performance criteria and certification guidelines for suppliers (like us!) and labeling requirements that identify a tent as being constructed of flame-resistant materials and caution against action detrimental to those flame-retardant finishes.

WARMING PRODUCTS**

SKERPROOF

N-FERNO® WARMING PRODUCTS

Used to be the only thing between you and the freezer aisle was a moose-skin coat, some kindling and a prayer. If you'll forgive a little snub to any old-school survivalists out there, we've upped the game. N-Ferno® Warming Products boast a boiler room full of innovations and space-age fibers designed to stave off the encroaching sub-zero conditions. Besides, have you smelled moose-skin lately? It is unpleasant.

N-FERMENTATION STATION: A GUIDE TO N-FERNO® WARMING

EVERYBODY HAS THEIR OWN IDEAS OF WHAT COLD ACTUALLY MEANS. With a wide array of technology to ward off everything from Florida cold (Single-layer Lightweight) to, well, *actual* cold (Advanced), our N-Ferno® line runs the gamut. Here's your guide to what's what in winter warmth.

	BALACLAVAS										LINERS							HATS // CAPS // BEANIES

// FLAME RESISTANCE

Each year, hundreds of burn injuries and deaths are recorded from workers exposed to open flame, high heat, flash fire or arc flash without proper personal protective equipment (PPE).

Avoid "Single Wash" Solutions

Products that are made of polyester with topical FR treatments are often inaccurately believed or reported to be FR-compliant. The topical treatment does help the material self-extinguish, but only after the flame source is removed. As long as the flame is present, polyester will do what polyester does: melt, drip and burn.

This treatment is often described as a "single wash," meaning it will be ineffective after one laundering. **Treated polyester products do not meet any FR garment standard appropriate for ARC flash or flash fire hazards such as ASTM F1506 or NFPA 2112.** If the job calls for workers to wear clothing compliant to any of the FR garment standards, it is critical that they do not wear PPE with a topical FR treatment.

Instead, make sure PPE is made with trusted, compliant materials like Nomex® or modacrylic blends and sewn with flame resistant Nomex® or meta-aramid threads per the appropriate FR performance requirements.

MULTIPLE WAYS TO WEAR

N-FERNO® WARMING PACKS

Whether in mittens or gloves, the 6990 Hand Warming Packs come in handy whenever you need to keep fingers from freezing. Most N-Ferno® Winter Liners come standard with warming pack pockets designed specifically for the versatile little power packs of heat to keep ears nice and toasty. You can even get crazy and toss one in a pocket! The 6992 Toe Warming Packs adhere to the insole of a shoe or boot to keep toes comfortable – so frostbite can fuggedaboutit. For those who need full foot heating, there's the 6995 Full Foot Warming Packs.

TREX™
ICE TRACTION

TREX™ ICE TRACTION:

ICE TRACTION SERIES

DIFFERENTIATED BY DESIGN

SNOW

TREAD DESIGN // SNOW

“Block sipings” create additional tread surface area for increased grip on snowy surfaces.

ICE

PRESSURE DISTRIBUTION // ICE

In icy conditions, pressure has to be distributed by having high surface contact with the ground. Micro-pumps increase adhesion on icy surfaces.

WATER

GROOVE DESIGN // WATER

Strategically placed grooves allow for water evacuation when pressure is applied to the ground on wet surfaces.

SPIKELESS ICE TRACTION DEVICE

INDEX MARKS THE SPOT.

WHERE'S THAT... Ask for directions when you're lost. Call a plumber when your sink is broken. Use this index when you need to find something in the workbook. You can do this; we believe in you.

DON'T EYEBALL THIS ONE

You look mah-velous! Don't screw it up with improperly sized duds. You come in all shapes and sizes and so does our gear. Use our sizing spread to get fitted out and styled up.

**ProFlex®
Gloves**

Measure around the palm. **DO NOT** include the thumb area. Use the size chart across the bottom of this page to double check your size choice.

**ProFlex®
Wrist Supports**

Measure around the smallest part of the wrist.

**ProFlex®
Wrist Wraps**

Measure around the smallest part of the wrist.

**ProFlex®
Elbow Supports**

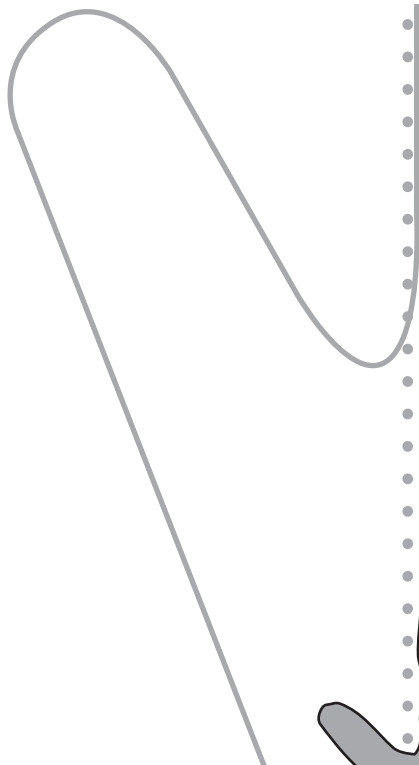

In a relaxed position, measure around the widest area of the forearm just below the elbow. For best fit, an elbow support should sit about 2-3 finger widths below the elbow crease.

**Ergodyne®
Knee Sleeves**

Measure around the center of the knee with the knee extended.

What size do you need?

Place the index finger OF YOUR RIGHT HAND next to the dotted line as shown. To find your proper size, refer to the closest line to the right side edge of your hand.

Align index finger with the dotted line at left for optimum grip and finger control, glove should fit snug.

Use this "handy" diagram to determine which ProFlex® Glove best fits your mitts.

**TREX™ Ice Traction
6325**

Use shoe or boot size to determine the appropriate size. TREX™ Ice Traction should fit snugly.

**TREX™ Ice Traction
6300 // 6300 TC**

**TREX™ Ice Traction
6310**

**TREX™ Ice Traction
6304 // 6320**

**ProFlex®
Back Supports**

Measure around the waist. A support should fit snugly, but not so tightly that it cannot be cinched firmly when ready to lift.

**N-Ferno®
Base Layer Bottoms**

Use standard waist size measurement.

**N-Ferno®
Base Layer Shirts**

Individually sized M, L, XL, 2XL, 3XL and follow standard sizing.

**N-Ferno®
Outerwear Jacket**

Bring tape measure around the widest part of your chest, under your arms, completely around your torso.

**N-Ferno®
Outerwear Bibs**

Use standard waist size measurement.

SIZE UP THE SITUATION

Improperly sized gear is a prime cause of heartache and sadness. Remember when you showed up at school wearing high-water pants? Of course that's nothing compared to the crack-tacular combination of too-short shirt and too-loose pants. Don't let these calamities occur. Your gear will be more effective and comfortable if you choose appropriate sizes.

CHEST: Measurement should be taken around the fullest part of the chest with arms down, just under the arms and across the shoulder blades.

WAIST: Measure around waist (not pulling tightly) at the height you prefer to wear the waistband.

INSEAM: Take a pair of pants that fit you well and measure from the crotch to the bottom of the leg.

STEEL-PLATED, ROCK-SOLID, GOOD AS GOLD GUARANTEE.

**WE STAND BEHIND EVERY DAMN THING WE MAKE
AND GUARANTEE OUR PRODUCTS WILL BE

TO THE ORIGINAL PURCHASER FOR THE LIFE OF THE PRODUCT.**

(DAMAGE, ABUSE, AND/OR NORMAL WEAR AND TEAR ARE NOT COVERED. LET'S LEAVE OUR LAWYERS OUTTA THIS, HUH?)

WORKDAY TO WEEKEND.

The truth is, every day starts with the same challenge, whether you're faced with just another manic Monday or it's easy like Sunday morning.

Do you stay cozy and coddled under those covers? Those flannel jammies are righteous, no doubt...

But ultimately, you rise (refusing to be a prisoner to your space age memory foam and 800 thread count Egyptian cotton) and do what your true nature demands: Wake up and do something! Build something. Learn something. Inevitably fail at something and try again (the "obstacle is the way" as they say).

In other words, show up, do good work, git 'er dun. Because workday to weekend, you're all in.

Tenacious by nature, indeed.

Let's carpe the \$#!+ out of this diem.

A KLEIN TOOLS COMPANY

Do not burn yourselves out. Be as I am — a reluctant enthusiast ... a part-time crusader, a half-hearted fanatic. Save the other half of yourselves and your lives for pleasure and adventure. It is not enough to fight for the land; it is even more important to enjoy it. While you can. While it's still here. So get out there and hunt and fish and mess around with your friends, ramble out yonder and explore the forests, climb the mountains, bag the peaks, run the rivers, breathe deep of that yet sweet and lucid air, sit quietly for awhile and contemplate the precious stillness, the lovely, mysterious, and awesome space. Enjoy yourselves, keep your brain in your head and your head firmly attached to the body, the body active and alive, and I promise you this much; I promise you this one sweet victory over our enemies, over those desk-bound men and women with their hearts in a safe deposit box, and their eyes hypnotized by desk calculators. I promise you this; You will outlive the bastards.

- Edward Abbey
