World Leader in Emergency Eye Care

Since 1950, Honeywell Safety Products and its predecessors have manufactured and distributed leading safety and health products worldwide. Honeywell is the well-respected market leader in portable eyewash stations and is recognized for its wide range of emergency eyewash products including the first 100% sterile sealed-fluid cartridge and 100% sterile delivery station, the first self-contained gravity-fed station, the first heated self-contained gravity-fed station and the first heated sterile eyewash station.

When Seconds Count, Portable Matters

The need for immediate flushing requires the installation of emergency eyewash devices in accessible locations that require no more than 10 SECONDS to reach. For a strong acid or strong caustic, the eyewash should be immediately adjacent to the hazard. Honeywell self-contained, portable eyewash stations require no plumbing for easy and affordable placement near any workplace hazard, and deliver a sterile or buffered saline solution superior to tap water for emergency eye care. Ordinary tap water, used in plumbed or some tank-type eyewash devices, may contain harmful bacteria or contaminants that can cause additional eye damage. A sterile or buffered saline solution is the most effective flushing fluid for emergency first aid.

WARNING! Honeywell equipment should only be used in conjunction with the manufacturer's instructions. Failure to follow such instructions could result in serious injury including diminution or loss of vision.

FEATURED PRODUCT

Fendall 2000™ Heated Accessory

Fendall 2000 Heated Accessory is the first of its kind and offers an innovative solution to the challenges presented by workplace environments that are extremely cold or vary due to seasonal weather changes.

Made of sturdy, long-lasting vinyl and tested and approved for use in temperatures as low as -40°, the heated accessory maintains the cartridge solution at a tepid temperature as required by the current ANSI Z358.1 standard.

It's perfect for outdoor worksites during cold weather months and low temperature work areas, such as freezers.

Made in the USA.

Emergency Eyewash Features Enabled Safety Products RFID Technology

Both the Fendall 2000™ and Fendall Pure Flow 1000® Eyesaline cartridges are now RFID-enabled to simplify inspection, maintenance and inventory control to help support and strengthen workplace safety programs.

PRIMARY EYEWASH DEVICE: STERILE SEALED FLUID CARTRIDGE

Fendall 2000™

- Delivers 100% sterile saline from a 100% sterile delivery system
- 24-month cartridge life,* saves time and money on replacements and inspections
- Built-in alarm system that sounds when the unit has been activated and again when the injured individual has completed the required 15-minute flush
- Deactivation button that allows for fast and easy maintenance without false activation
- Arm/headrest provides user comfort, enabling better compliance
- Integrated waste containment to prevent spills and is easily emptied
- Sleek assembly that fits in most locations
- Self-contained, with no plumbing required, makes this highly portable
- Easy-view side windows to check sterile solution expiration date and key contact information
- Heated Accessory (sold separately) available for use in temperatures as low as -40° while still maintaining the cartridge solution at a tepid temperature as required by the current ANSI Z358.1 standard
- Comes complete with emergency eyewash station sign, mounting bracket, installation DVD, tamper seal, and 1-year warranty. Sterile Eyesaline solution cartridge (sold separately). Cartridge manufactured in USA
- Meets current ANSI Z358.1 15-minute flush requirement for primary eyewash stations

PRIMARY EYEWASH DEVICE: SEALED FLUID CARTRIDGE WITH STERILE OPTION

32-001000-0000

Fendall Pure Flow 1000®

- Easy installation. No plumbing required. Can be easily and affordably placed near most workplace hazards with single bracket mounting device or transported with optional universal cart or stand
- Factory-sealed fluid cartridges eliminate mixing, measuring, and the opportunity for airborne particles or microorganisms to contaminate the fluid prior to use
- Easy to activate sure-grip handle provides instant, simple activation. When not in use, cover keeps dirt and other debris from collecting in the basin and nozzle area
- Unique nozzle design delivers a soft “ribbon” of our buffered Eyesaline solution
- Permits thorough flushing with a constant flow rate and stream height that provides 0.4 gpm for entire 15-minute cycle required by current ANSI Z358.1
- Captures waste fluid to eliminate spill hazards and simplify fluid disposal
- Integral valve at bottom of unit allows easy draining of reservoir after use
- 24-month cartridge life,* at least four times longer than other primary self-contained eyewash devices, saves time and money on replacements and inspections. Cartridges (sold separately)
- Cartridges remain sealed until activated. Expiration date is included on activation straps – and cartridge replacement takes less than five minutes
- Meets current ANSI Z358.1 15-minute flush requirement for primary eyewash stations
- Made in the USA

PRIMARY EYEWASH DEVICE: REFILLABLE

32-000200-0000

Fendall Porta Stream® II + III

- Easy installation with no plumbing required. Can be easily and affordably placed near most workplace hazards with single bracket mounting device or transported with optional universal cart or universal stand. Molded handle accepts hanging bracket for vertical or horizontal surface installation
- Versatile flushing fluid options include Eyesaline Concentrate – a buffered, saline solution superior to tap water for emergency eye care, and Water Additive
- Large 16 gallon (60.5L) capacity permits thorough flushing by providing 0.4 gpm over the entire 15-minute flushing period required by current ANSI Z358.1
- Nozzles cover a wide area around the eyes
- Simple strap design is easily removed for hands-free flushing, leaving hands free to hold eyelids open
- Properly installed, the system may be safely leaned upon during use
- Large fill hole/lockable fill cap to simplify refilling and cleaning. Reduces risk of possible tampering
- Easy-to-use design features simple, highly visible operating instructions on the unit itself
- Honeywell Eyesaline Concentrate requires 6-month maintenance cycle. Water Additive requires a 4-month maintenance cycle
- Meets current ANSI Z358.1 15-minute flush requirement for primary eyewash stations
- Made in the USA

SECONDARY EYEWASH DEVICE: REFILLABLE

Fendall Porta Stream® I

- Delivers 6 minutes of uninterrupted, hands-free flushing — without costly plumbing
- Easy installation with no plumbing required. Can be easily and affordably placed near most workplace hazards with single bracket mounting device or transported with optional universal cart or universal stand. Molded handle accepts hanging bracket for vertical or horizontal surface installation
- Supplied with either 70 oz. (2.07L) of Eyesaline Concentrate which, when mixed with tap water, provides 6 gallons (22.7L) of buffered, Eyesaline solution superior to tap water for emergency eye care solution, or 8 oz. of Water Additive, enough for 14-16 gallons of water
- Nozzle strap is easily removed for hands-free flushing, leaving hands free to hold eyelids open
- Low maintenance with one-piece, molded construction and no moving parts
- Large fill hole simplifies refilling and cleaning
- Easy-to-use design features simple, highly visible operating instructions on the unit itself
- Eyesaline Concentrate requires 6-month maintenance cycle. Water Additive requires a 4-month maintenance cycle
- **DOES NOT MEET** the current ANSI Z358.1 15-minute flushing requirement
- Made in the USA

SECONDARY EYEWASH DEVICE: SEALED FLUID CARTRIDGE

32-000401-0000

32-000400-0000

Fendall Flash Flood®

- Easy installation with no plumbing required. Can be easily wall mounted for placement near most workplace hazards
- One-gallon sealed cartridges are easy to store and offer quick changes without mixing or measuring
- Dual nozzles provide simultaneous flushing to both eyes for three minutes
- Unique cartridge design delivers Eyesaline solution – a buffered, pH-balanced Eyesaline solution that is superior to tap water for emergency eye care
- Highly portable system may be easily wall mounted
- Nozzle strap is easily removed for hands-free flushing, leaving hands free to hold eyelids open
- Easy-to-use design features simple, highly visible operating instructions
- Eyesaline solution cartridges, once installed, require a 6-month maintenance cycle. Unopened cartridges have a shelf life of up to 24 months*
- **DOES NOT MEET** the current ANSI Z358.1 15-minute flushing requirement
- Made in the USA
