## Consider the Cost, Waste and Inefficiency of Rags

Rags may seem like a good wiping choice. But think about what you're really getting — and ask yourself these questions:

- *How many of the rags we buy are unusable and are just thrown away? Why are we paying for rags we can't use?*
- *How much valuable space do we devote to storing those big bulky rag containers?*
- *Is walking back and forth to the rag barrel (and taking time to choose a rag) hurting worker productivity?*
- *How many rags are used to complete a wiping task?*
- *How many pounds of heavy rags are we paying to dispose of?*

Rags are sold by weight but are inconsistent in size, fabric and shape. They add to your landfill waste and associated costs. They can even leave residue on parts, creating quality issues.

### ***This small change can make a big impact:***

Simply switch to WypAll\* Wipers. When you compare the lifecycles of WypAll\* Wipers and rags, you'll discover opportunities to:

- Consume less
- Reduce waste
- Cut costs<sup>2</sup>

**Take a look at these 5 important ways WypAll\* Wipers outperform rags. Then find out how easy it is to make the switch.**

<sup>2</sup> Comparisons based on average WypAll\* Wiper usage versus average rag usage.

# WypAll\* Wipers vs. Rags

**STORE**

## 68% less space!

**DISPENSE**

## No more dancing!

Moving from work to the rag dispenser, selecting a just-right rag, then going back to work. *What a waste!*

**USE**

## WypAll\* Wipers absorb more than 2x the amount of water as rags.

**DISCARD**

## WypAll\* Wipers reduce waste by 78% versus rags
